How sad is this- Boomers don't even like themselves !!

I was born in 1963. I despise baby boomers they are nothing more than a bunch of 50-60 year old babies, I can't stand them!!

How in the hell is someone in their 40's a baby boomer??? Those born in the early sixties should not in any way shape or form be categorized as a baby boomer, I refuse to be labeled with those pacifist, socialist, sandal wearing pansies!!

I cannot relate to any of them nor have I ever gotten a long with them, they go around and act like they know something you don't know and if you think differently there is something seriously wrong with you, they have emotional knee-jerk reactions to everything without doing any real research, hence the media which is controlled by these baby booming idiots, I wish they would just all hurry up and die the hell out ASAP!

Copy of a letter sent to BONZA (Baby boomer information site) web site yesterday from a baby boomer.

Market research shows we don't like to be called Boomers but I thought this was rather sad that one of our own wishes we were dead.
